

Antonio Carmagnani

Copenhagen, DK • +45 71 49 62 06 • antoniocarmagnani@gmail.com

PROFILE

Experience in international infrastructure consulting on water and energy projects across emerging economies, working from tender through delivery. Recently completed an M.Arch. in Architecture Computation at The Royal Danish Academy, with a focus on data-driven approaches to the built environment. Hands-on skills span climate risk assessment (JASPERS/EBRD), GIS-based spatial analysis, and preparing technical documentation and tenders for development-bank-funded projects. Motivated by work where infrastructure, sustainability, and technical analysis intersect.

EXPERIENCE **Project Assistant in International Infrastructure Projects @ Sweco Danmark A/S**

Copenhagen, DK

02.2026 - Present

- Support consulting teams delivering internationally funded infrastructure projects in water, energy, and transport across emerging and developing economies, financed by development banks including the World Bank, EBRD, IFDK, KfW and EIB.
- Contributed to the technical and methodology sections of tender proposals, articulating Sweco's delivery approach for infrastructure project bids.
- Assembled bid teams for competitive international tenders, sourcing specialist consultants to evidence the local and technical expertise.
- Developed a pricing tool to support bid decisions, parametrizing expert fee bands and project economics for financial viability testing of tender configurations.
- Reviewed engineering designs across multiple infrastructure projects under FIDIC Yellow Book arrangements, checking specifications against subconsultants' technical drawings.
- Produced cartographic material locating infrastructure across multiple international projects to support methodology and proposal documents.
- Produced the climate risk and adaptation chapters of project Inception Reports for internationally financed water projects, translating climate projections into hazard, risk, and adaptation findings for client and lender review.
- Engaged national water agencies and government counterparts during the field missions to align on rehabilitation priorities and collect technical and geographic project data.

Intern in Responsible Business Conduct @ Ramboll Management Consulting

Copenhagen, DK

05.2025 - 08.2025

- Conducted human rights due diligence for corporate clients, applying the UN Guiding Principles on Business and Human Rights and OECD Guidelines to assess salient risks across global supply chains.
- Led an internal market study mapping 20+ critical raw materials supply chains to identify prospective clients and new ESG service lines, connecting regulatory drivers to concrete business development targets.
- Ran a peer benchmarking analysis for a corporate client, comparing its responsible business and human rights practices against industry competitors across multiple service areas to identify gaps, competitive advantages, and opportunities to strengthen its positioning.
- Developed a client-facing overview of the firm's real estate ESG due diligence services, centered on building energy and decarbonization assessments aligned with EU building performance regulations.
- Built a fully automated risk-assessment system in Excel, consolidating risk data across supply chains into a single dashboard that updated salient risks dynamically.

Architect @ Isay Weinfeld Architects

São Paulo, BR

02.2023 - 08.2024

- Delivered high-end residential, hotel, and mixed-use projects across South America, North America, Europe, the Middle East, and Asia at one of Brazil's most prominent architecture studios.
- Coordinated multidisciplinary inputs (structural, HVAC, electrical, lighting) into a single Revit model.
- Produced executive and technical documentation and coordination models across multiple project phases.
- Took part in client and consultant meetings to align design proposals with project requirements across disciplines.

Trainee in Real Estate Product Development @ OSPA

São Paulo, BR

02.2022 - 10.2022

- Produced 15+ feasibility studies for mixed-use and residential developments across Brazil and the US (São Paulo, Rio de Janeiro, Porto Alegre, Miami) for developer clients.
- Analyzed municipal master plans and land-use law to determine development potential, unit counts, apartment sizing, and setback rules, identifying regulatory opportunities to maximize buildable value.
- Produced images, plans, and diagrams and presented feasibility outcomes to developer clients.

Co-Founder @ VIZU

São Paulo, BR

02.2022 - 10.2022

- Co-founded and ran an architectural visualization studio, managing 10+ clients, project scoping and delivery, and hiring staff.
- Produced architectural renders, humanized plans, and visualizations to communicate residential and commercial designs to investors and end buyers.

Architect @ Felipe Hess Architects**São Paulo, BR**

07.2021 - 02.2022

- Developed high-end residential projects in São Paulo and Rio de Janeiro from preliminary studies through technical documentation, working in Revit, AutoCAD, and SketchUp.
- Carried out a zoning and feasibility study under São Paulo's master plan for residential buildings, determining buildable potential, apartment sizing, and compliance with fire and elevator regulations.
- Took part in client meetings and produced preliminary design studies to align proposals with client briefs.

Intern in Project Management @ Itaú-Unibanco**São Paulo, BR**

08.2020 - 07.2021

- Reviewed technical documentation from architecture and engineering firms prior to construction authorization, checking drawings against building, accessibility, and fire-safety norms (NBR standards).
- Built a VBA-powered Excel dashboard tracking the bank's corporate furniture inventory across locations, replacing a manual process and speeding up procurement for new-building fit-outs.
- Supported technical review of new office towers under construction at the bank's São Paulo headquarters campus, evaluating design documentation for compliance and environmental performance.

EDUCATION M.Arch. in Architecture Computation @ The Royal Danish Academy**Copenhagen, DK**

07.2024 - 07.2026

Semester Programme in Building Technology @ Architecture Association**London, UK**

07.2022 - 01.2023

Summer School in Parametric Design @ Architecture Association**London, UK**

06.2019 - 07.2019

B.Arch. in Architecture and Urbanism @ Mackenzie University**São Paulo, BR**

07.2018 - 12.2023

PROJECTS Master's Thesis, Computational Urban Analysis for Intensification Strategy @ The Royal Danish Academy**Copenhagen, DK**

- Developed a computational framework to identify underused spaces in the historic city center of São Paulo, Brazil, combining urban morphology analysis, land use data, and social vulnerability indicators.
- Built an algorithm that uses urban data, including building typology, use patterns, regulatory conditions, and building use, to generate programmatic and morphological typologies for urban intensification, aligned with the city's existing urban policies.
- Integrated multiple geospatial datasets in QGIS to map spatial relationships between buildings, zoning conditions, and social context at the neighborhood scale.

Embodied Carbon Toolkit @ Revalu**Copenhagen, DK**

- Collaborated with Revalu, a Copenhagen-based LCA platform, to design and deliver a Revit-based toolkit for embodied carbon calculations integrating the platform's GWP values.
- Built a pre-configured Revit schedule that computes embodied carbon with built-in documentation for adoption by architects.
- Provided UX feedback drawing on years of hands-on Revit experience, advising on material search, organization, and Revit integration workflows.
- Maintained an ongoing advisory relationship with Revalu's product team, contributing feedback on API development and platform features over a year after the initial delivery.

SKILLS

- Data & Analysis: Python, QGIS, SQL, Power BI, Excel / VBA, HTML
- Digital Tools: Rhino + Grasshopper, Revit, AutoCAD, Adobe Suite (InDesign, Illustrator, Photoshop)
- ESG & Sustainability: CSRD, Double Materiality, EU Taxonomy, UNGPs, OECD Guidelines, HRDD, HRIA, LCA (Life Cycle Assessment)
- Real Estate & Urban: Real estate feasibility modeling, Zoning and land use regulatory analysis, Urban morphology and spatial analysis
- Languages: English (fluent), Portuguese (native), Spanish (fluent), Danish (limited working proficiency), Italian (limited working proficiency)
