DIPLOMA SUPPLEMENT

Master of Arts (MA) in Architecture

1. Information identifying the holder of the qualification

1.1. *Family name(s)*: Carmagnani

1.2. *Given name(s)*: Antonio

1.3. *Date of birth*: 25 March 1999

2. Information identifying the qualification

2.1. *Name of qualification and title conferred in English/Danish*:

Master of Arts (MA) in Architecture / cand.arch. (candidatus/candidata architecturae)

2.2. *Main fields of study for the qualification*:

Architecture.

Name of program:

Computation in Architecture

2.3. *Name and status of awarding institution in English/Danish*:

The Royal Danish Academy – Architecture, Design, Conservation/

Det Kongelige Akademi – Arkitektur, Design, Konservering

Royal Danish Academy is a state-recognized higher education institution regulated according to the Ministry of Higher Education and Science, Act 1410 of 12 December 2014 plus amendments. The Master's Program in Architecture was accredited by The Danish Accreditation Council in 2010.

2.4. *Name and status of institution administering the studies*:

As above

2.5. *Language(s) of instruction/examination*:

English

3. Information on the level of the qualification

3.1. *Level of qualification*:

This Diploma Supplement model was developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

Master's degree (NQF/EQF Level 7 referring to Second Cycle in the Bologna Qualifications framework).

3.2. Official length of programme:

Two years, 120 ECTS credits

3.3. Access requirements:

Admission to the master's programme requires a completed bachelor degree in architecture from a state-recognised higher education institution.

Royal
Danish
Academy

Architecture
Design
Conservation

4. Information on the contents and results gained

4.1. Mode of study:

Full-time.

4.2. Programme requirements:

Graduates have the following specific competencies:

- Knowledge on, insight into and understanding of architectural theory, methods and forms of practice on the basis of leading research and development; the ability to reflect critically to professional architectural knowledge and identify artistic and scientific problems and challenges.
- Skills in the use of architectural theory, methods, tools and forms of representation as well as to master general architectural skills: be able to evaluate and select artistic and scientific methods and tools, as well as develop models of analysis and solutions and have spoken and visual skills to express and discuss architecture's artistic and scientific problems and solutions with both professionals and laymen.
- Competences in the preparation and development of proposals for the design and spatial organisation of independently formulated architectural programmes; to be able to independently initiate and complete professional and interdisciplinary work, and accept professional responsibility as well as independent responsibility for one's own professional development and specialisation.

The master's programme concludes with a thesis project of 30 ECTS credits. It is an independent analytical project-oriented and/or theoretical study of one or more architectural issues and should document the student's ability to use artistic and/or scientific theory and methodology in the work with a clearly defined architectural subject.

4.3. Programme details and individual grades/marks/credits obtained:

Please see enclosed transcript of records.

4.4. Grading scheme and, if applicable, grade distribution information:

The grading system used in all Danish state-regulated educational programmes as of September 2007 is the 7-point grading scale. The grading scale is compatible with the ECTS grading scale.

In addition to the 7-point grading scale pass/fail assessment may also be used.

Description of grades:

- 12 For an excellent performance displaying a high level of command of all aspects of the relevant material, with no or only a few minor weaknesses
- 10 For a very good performance displaying a high level of command of most aspects of the relevant material, with only minor weaknesses
- 7 For a good performance displaying good command of the relevant material but also some weaknesses
- 4 For a fair performance displaying some command of the relevant material but also some major weaknesses
- 02 For a performance meeting only the minimum requirements for acceptance
- 00 For a performance which does not meet the minimum requirements for acceptance
- 3 For a performance which is unacceptable in all respects

4.5. Overall classification of the qualification:

Not applicable for Danish qualifications

5. Information on the function of the qualification

5.1. Access to further study:

The Master of Arts (MA) in Architecture gives access to further studies within the field at NQF/EQF Level 8 referring to Third Cycle in the Bologna Qualifications Framework (PhD level).

5.2. Professional status:

In connection with a preceding bachelor education in architecture, the master's programme fulfils the common European architectural qualification requirements in EU Directive 2005/36, Article 46.

6. Additional Information

6.1. Additional information:

The Royal Danish Academy – Architecture, Design, Conservation was founded in 2011 through of a merger of the Academy's School of Architecture, The Danish Design School and the Academy's School of Conservation.

Royal
Danish
Academy

Architecture
Design
Conservation

The Royal Danish Academy – Architecture, Design, Conservation unites three fields of knowledge: academic research, artistic research and professional practice as three different ways to discover, invent and create. These three fields are closely interlinked in the education, enabling us to develop graduates and knowledge, which match the needs of the profession, while contributing world-class research, ground-breaking artistic design and new experimental understanding. Our knowledge base gives The Royal Danish Academy – Architecture, Design, Conservation a unique position among educational and research institutions both in Denmark and abroad.

6.2. Additional sources of information:

Further information in English may be obtained from

- www.royaldanishacademy.com/royal-danish-academy, the website of The Royal Danish Academy – Architecture, Design, Conservation.
- <https://ufm.dk/en>, the website of The Ministry of Higher Education and Science.

7. Certification of the supplement

7.1. Date of issue: June 2026

7.2. Signature:

Jan Gjettermann

7.3 Position: Study administrative employee

7.4 Official stamp or seal:

8. Information on the national higher education system

Please see the attached description of the Danish Higher Education System

The Danish Higher Education System

April 2016

Public higher education institutions in Denmark are regulated by national legislation concerning degree structures, teacher qualifications and examinations. Accreditation in higher education is undergoing transition from programme-based accreditation to institutional accreditation. Programmes and institutions are accredited by national, independent accreditation agencies and the Accreditation Council.

Higher education institutions

Higher education is offered by five types of higher education institutions:

1. Business academies (*Erhvervsakademi*) offering professionally oriented short cycle and first cycle degree programmes.
2. University Colleges (*Professionshøjskole*) offering professionally oriented first cycle degree programmes.
3. Maritime Education and Training Institutions offering professionally oriented short cycle and first cycle degree programmes.
4. General and specialised research universities (*Universitet*) offering first, second and third cycle degree programmes in academic disciplines.
5. University level institutions offering first, second and third cycle degree programmes in subject fields such as architecture, design, music, and fine and performing arts.

Most higher education institutions are regulated by the Ministry of Higher Education and Science (type 1-5). The Ministry of Culture regulates a number of higher education institutions offering programmes within fine and performing arts (type 5).

Degrees in the Danish Higher Education System

Danish qualifications levels	Ordinary higher education degrees	Adult/continuing higher education degrees	Qualifications Framework for the European Higher Education Area – Bologna Framework	European/National Qualifications Framework for Lifelong Learning – EQF/NQF
Academy Profession level	Academy Profession (AP) degree (90-150 ECTS)	Academy Profession (AP) degree (60 ECTS) (also known as Further Adult Education (VU) degree)	Short cycle	Level 5
Bachelor's level	Professional Bachelor's degree (180-270 ECTS)*	Diploma degree (60 ECTS)	First cycle	Level 6
	Bachelor's degree (within the arts) (180 ECTS)			
	Bachelor's degree (180 ECTS)			
Master's level	Master's degree (within the arts) (120-180 ECTS)	Master degree (60-90 ECTS)	Second cycle	Level 7
	Master's degree (120 ECTS)**			
PhD level	PhD degree (180 ECTS)		Third cycle	Level 8

* Can be obtained through a full regular bachelor's programme (180-270 ECTS) or a top up bachelor's programme following an Academy Profession degree.

** A few Master's programmes are up to 180 ECTS.

Higher education institutions measure study activities in ECTS credits. 60 ECTS correspond to one year full-time study.

Qualifications framework

The qualification levels form the basis for the Danish National Qualifications Framework for Higher Education, which is certified in accordance with the overarching Bologna Framework according to the principles adopted by the European Ministers of Higher Education. Danish higher education qualifications at levels 5-8 of the Danish Qualifications Framework for Lifelong Learning (NQF) correspond with levels 5-8 of the European Qualifications Framework (EQF).

Admission and progression

General access to higher education in Denmark requires an Upper Secondary School Leaving Certificate or comparable qualifications. Admission to some particular programmes requires entrance examination or submission of a portfolio of artistic work. Holders of an Academy Profession degree can obtain a Professional Bachelor's degree within the same field of study through a top-up programme. Completion of a first cycle degree qualifies students for admission to the second cycle.

Ordinary Higher Education degrees

The Academy Profession degree is awarded after 90-150 ECTS and includes a period of work placement of at least 15 ECTS. The programmes are development-based and combine theoretical studies with a practical approach. Programmes are, among others, offered within Marketing Management, Computer Science and Chemical and Biotechnical Science. The Danish title is field of study followed by the abbreviation *AK* and the English title is *AP Graduate in* [field of study].

The Professional Bachelor's degree is awarded after 180-270 ECTS and includes a period of work placement of at least 30 ECTS. The programmes are applied programmes. They are development-based and combine theoretical studies with a practical approach. Examples of professional bachelor's degree holders are nurses, primary and lower secondary school teachers and certain types of engineers. The Danish title is *Professionsbachelor i* [field of study] and the English title is *Bachelor of* [field of study].

The Bachelor's degree from a university is awarded after 180 ECTS. The programmes are research-based and are offered in all scientific fields. The Danish title is *Bachelor (BA) i* [field of study] or *Bachelor (BSc) i* [field of study] and the English title is *Bachelor of Arts (BA) in* [field of study] or *Bachelor (BSc) of Science in* [field of study].

The Bachelor's degree (within the arts) is awarded after 180 ECTS. The programmes are based on research and artistic research. Programmes are offered within the fine arts. The Danish title is *Bachelor (BA) i* [field of study], *Bachelor i musik (BMus)* [field of study] or *Bachelor i billedkunst (BFA)* [field of study] and the English title is *Bachelor of Arts (BA) in* [field of study], *Bachelor of Music (BMus)* [field of study] or *Bachelor of Fine Arts (BFA) in* [field of study]. A higher education degree within theatre or filmmaking is awarded after 3-4 years of study (180-240 ECTS).

The Master's degree is awarded after 120 ECTS. The programmes are research-based and are offered in all scientific fields. The Danish title is abbreviated to *Cand.* [latin abbreviation of academic area] *i* [field of study]. The English title is *Master of Arts (MA) in* [field of study] or *Master of Science (MSc) in* [field of study].

The Master's degree (within the arts) is awarded after 120-180 ECTS. The programmes are based on research and artistic research. The Danish title is abbreviated to *Cand.* [latin abbreviation of academic area] [field of study]. The English title is *Master of Arts (MA) in* [field of study], *Master of Music (MMus)* [field of study] or *Master of Fine Arts (MFA) in* [field of study]. Music Academies offer a specialist degree of 2 to 4 years following the master's degree.

The PhD degree is awarded after 180 ECTS. PhD programmes are offered by the universities and some university level institutions offering degrees in the artistic and cultural field.

Detailed descriptions of degree levels can be found in the Danish Qualifications Framework at www.nqf.dk. Please consult the relevant Diploma Supplement for information about the learning outcome of any specific degree.

Adult and continuing higher education

The programmes normally consist of 2 years of part-time study, equivalent to 1 year of full-time study (60 ECTS credits). Certain master programmes require 1½ years of full-time study (90 ECTS credits). Admission requirements are a relevant educational qualification and at least 2 years of relevant work experience.

Adult and continuing education is available at levels corresponding to qualifications of the ordinary higher education system. The Further Adult Education degree (*videregående voksenuddannelse/akademiuddannelse*) is awarded after studies at short cycle level and gives access to diploma programmes.

The Diploma degree (*diplomuddannelse*) is awarded after studies at first cycle level and gives access to master programmes. The Master degree (*masteruddannelse*) is awarded after studies at second cycle level.

The 7-point grading scale

The grading system used in all state-regulated education programmes as of September 2007 is the 7-point grading scale. Apart from the 7-point grading scale, pass/fail assessment may also be used. 02 is the minimum grade for passing an exam.

Description of grades: 12: For an excellent performance displaying a high level of command of all aspects of the relevant material, with no or only a few minor weaknesses; 10: For a very good performance displaying a high level of command of most aspects of the relevant material, with only minor weaknesses; 7: For a good performance displaying good command of the relevant material but also some weaknesses; 4: For a fair performance displaying some command of the relevant material but also some major weaknesses; 02 For a performance meeting only the minimum requirements for acceptance; 00: For a performance which does not meet the minimum requirements for acceptance; -3 For a performance which is unacceptable in all respects.
