About

Over the past years, I've led full-cycle real estate investment and development management across Brazil and US, focusing on multifamily, mixed-use, and office-to-residential retrofits. My experience spans underwriting, capital raising, JV structuring, feasibility analysis, development and design management, and asset management with a track record of deploying institutional capital. I have managed large-scale investment strategies backed by global and local capital partners driving: - Deal Origination & Investment Underwriting (market analysis, financial modeling, returns optimization)- Development Management (design coordination, permitting, budgets, schedules, capex control) - JV & Capital Structuring (equity partnerships, debt financing, development agreements) - Strategic Asset Positioning (product strategy, target household segmentation, rent positioning, exit strategy) - Asset Management and Portfolio Management - Stakeholder & Investor Management (IC materials, business plans, capex reporting, project governance)

January 27, 2016, Elton managed Kim Diego directly

Kim is a very dedicated professional that I had the pleasure to have on my team at Odebrecht. He's a motivated person, passionate about his work and an energetic Real Estate Developer. His knowledge of architecture, mix used, product design, marketing are in tune with global best practices. He's an outside the box thinker that brings feasible solutions and practical results.
